

ELECTRIC VEHICLES

Time of Sale Extended Protection

TRAVEL WITH *PEACE OF MIND.*

Electric vehicles are built with advanced technology, but even the most reliable systems can experience unexpected failures. Our Time of Sale plan helps protect you from costly repairs to key components like electric motors, battery systems, charging units, and high-voltage wiring.

While electric vehicles are engineered for long-term durability, the manufacturer's warranty only provides initial protection. It has limitations and won't last forever, making extended coverage a smart choice for long-term peace of mind.

BENEFITS

Canada & United States Coverage

FCPP covers your vehicle anywhere in Canada and in the United States.

Direct Response

FCPP will efficiently handle your claim. For authorized services, repair costs are paid directly to the repair facility, saving you from out-of-pocket expenses and the inconvenience of waiting for reimbursement.

Reduced Deductible

You can choose a deductible of either \$100 or \$200 for each repair visit, plus any applicable taxes, for all covered repairs. If the same component fails again, there will be no deductible for its repair or replacement. The selected deductible will be reduced by \$50 when repairs are performed at your selling dealer.

Experienced Based Refund (EBR)/ Guaranteed Price Rebate (GPR)

(Available on qualifying plans)

If the plan you choose includes EBR/GPR, you can request a refund as soon as the plan expires. Refunds are calculated based on the original amount you paid for the plan, up to a maximum of \$2,000, minus your deductible.

Road Service & Towing

If your vehicle cannot safely operate on its own, we will reimburse the cost of towing it to the dealer (up to \$240) or to another location (up to \$100). Additional services provided include mechanical first aid, tire assistance, battery service, fuel delivery, and locksmith services.

Rental

If a covered breakdown requires overnight repairs, we will reimburse you for receipted expenses to rent a replacement vehicle or cover your taxi or public transportation costs. You can receive up to \$75 per day, with a maximum reimbursement of \$375 per repair.

Trip Interruption

If you experience a covered breakdown while more than 100 km away from your home and your vehicle needs to be kept at a repair facility overnight, we will reimburse you for motel and restaurant expenses with receipts. You can receive up to \$150 per day, with a maximum reimbursement of \$450 per repair.
